HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU

The following categories describe the ways that we use and disclose medical information. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall into one of the categories.

- **For Treatment.** We may use medical information about you to provide you with medical treatment. We may disclose medical information about you to doctors, nurses, therapists or other William Penn Continuing Care Campus personnel who are involved in taking care of you at William Penn Continuing Care Campus. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so that we can plan your meals. Different departments of a William Penn Continuing Care Campus facility also may share medical information about you in order to coordinate your care and provide you medication, lab work and x-rays. We may also disclose medical information about you to people outside the William Penn Continuing Care Campus who may be involved in your medical care after you leave a William Penn Continuing Care Campus. This may include family members, or visiting nurses to provide care in your home.
- **For Payment.** We may use and disclose medical information about you so that the treatment and services you receive at a William Penn Continuing Care Campus may be billed to you, an insurance company or a third party. For example, in order to be paid, we may need to share information with your health plan about services William Penn Continuing Care Campus provided to you. We may also tell your health plan about a treatment you are going to receive to obtain prior approval or to determine whether your plan will cover the treatment.
- **For Health Care Operations.** We may use and disclose medical information about you for health care operations. This is necessary to ensure that all of our residents receive quality care. For example, we may use medical information to review our services and to evaluate the performance of our staff. We may also combine medical information about many William Penn Continuing Care Campus residents to decide what additional services William Penn Continuing Care Campus should offer, what services are not needed, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, therapists, and other William Penn Continuing Care Campus personnel for review and learning purposes. We may remove information that identifies you so others may use it to study health care and health care delivery without learning the identities of residents.

Examples include medical directors, outside attorneys and a copy service we use when making copies of your health record. To protect your health information, however, we require the business associate to appropriately safeguard your information.
